

Day 6 journal entry

Dhisha Kumar

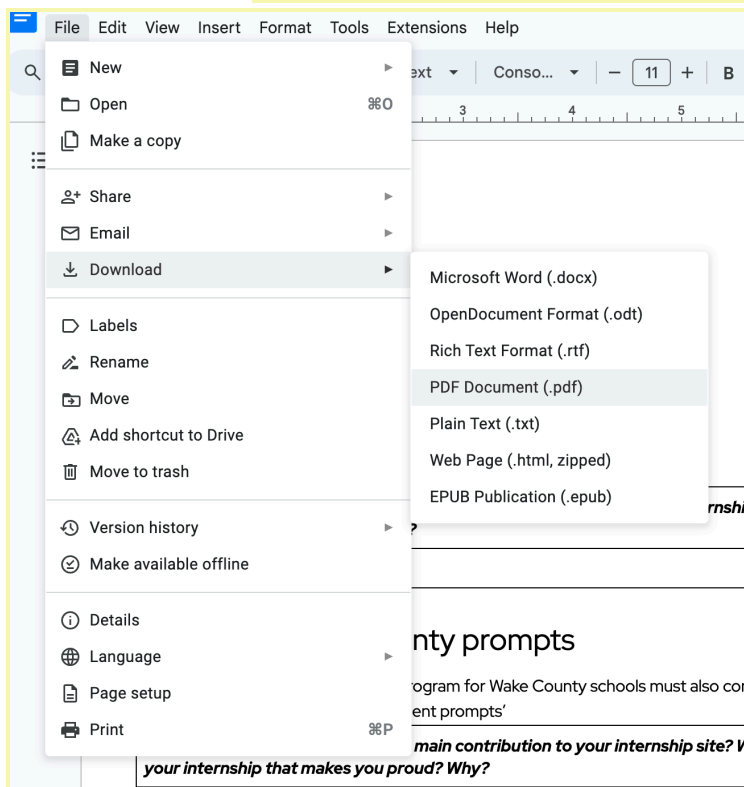

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

Prompt option 1: *How is the internship meeting or not meeting your expectations/objectives and why? Do you have control of this? Explain.*

This internship is meeting my expectations because my main goal was to expose myself to various fields related to business and computer science. After sitting through multiple presentations from professionals in different fields I have learned how people have ended up where they are now, and what they enjoy most about their job. I was hoping to do more shadowing of people while they were doing their jobs so what I did was ask to have a meeting set up with someone who does a lot of coding in their job. During this I learned about what he does in his job and how he uses AI to help him. After meeting with him I continued to do my own research based on the helpful tools he had given me.

Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Day 6 Journal Entry**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#). Use the ['Journal entry contribution' cheat sheet here](#) to assist you and ask a GitHub coach for help if you need it!
